WHY TENNIS MACHINE?

The tennis machine eliminates the need to find a partner for training and allows you to improve your strokes with a stable ball throw. It offers a convenient and efficient alternative to high private lesson costs. It helps you to take your game to the next level in a short time with different training programs.

You can make tennis lessons more efficient and fun with this machine, which is an indispensable assistant for coaches.

Staneg

TRAINING PROGRAMS

You can train in many different combinations with Staneg Pro.

- 9 different programs
- 10 speed levels
- +2 and -2 spin options
- 2 - 10 sec ball frequency
- 5 - 35 degree altitude
- Battery indicator

Sweep and Random Mode

You can prepare for balls coming from all angles with Sweep mode, which throws balls at 5 different horizontal angles. Improve your reflexes with Random mode.

Drill Mode

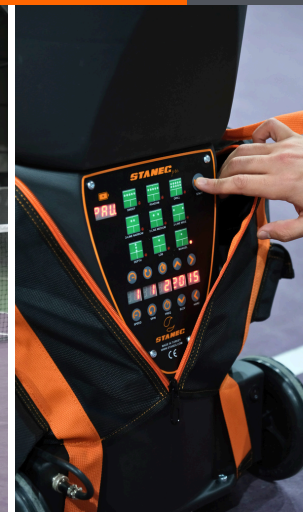

Drill mode oscillates horizontally and vertically at the same time. Ideal for all-field training.

2-Line Modes

You can train forehand and backhand in order with 2-line modes. There are 3 modes: narrow, medium and wide.

Depth, Lob and Manuel

You can do depth studies with Depth and mode. You can correct your shots with Manual mode.

PORTABILITY

Thanks to its foldable ball chamber, it fits easily into the trunk of all vehicles. With its transport wheels and trolley handle, it can be carried by effortlessly dragging it on flat surfaces, giving you the freedom to perform your workouts wherever you want.

EXTERNAL BATTERY

Staneg Pro's powerful li-ion battery provides 4-5 hours of continuous training on a single charge or you can shoot at least 2000 balls. With the external battery, you can easily charge it with a charger wherever you want, you don't have to carry the machine home.

CONTROLLER

The advanced control of Staneg Pro includes all key combinations and allows you to easily control your machine from anywhere on the tennis court. Its lightweight structure does not disturb during training.

STANEG PRO CASE

It allows you to easily carry your machine on uneven surfaces and during loading, while providing reliable protection against external effects. The remote control and battery pockets on the back provide great ease of use. Prevents loss.
